HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without a lower screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound will have often disturbs carriage horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, herein referred to and the best in use.

DISPATCHES TO THE OREGONIAN
EASTERN DATES TO FEBRUARY 7
Congressional.
WASHINGTON, Feb 7—In the Senate Morton presented the resolution of the Georgia Legislature accepting the conditions imposed by Congress by changing the State Constitution and ratifying the 14th and 15th amendments.
Edmunds from the Committee on Post Offices reported favorably on the bill to pay pensions to the soldiers' heirs.
A number of bills were introduced and referred.
Hamlin moved Trumbull the Senate take up the bill to reduce the internal taxation and to preserve the integrity of the several departments of the government. He explained that the Judiciary Committee had amended the bill as first introduced, by postponing repeal of certain taxes altogether.
Pomeroy, Schurz and Howard thought this too sweeping. The President must retain some hold by making appointments. Members of Congress were perhaps best fitted to act as advisers.
Williams moved to amend to prohibit judicial and naval officers as well as members of Congress from recommending applicants.
The morning hour expired and the Senate proceeded to consider the census bill. The House bill was read at length, as also was the Senate substitute, simply directing the Secretary of the Interior to change the schedule and blanks for taking an enumeration of the inhabitants so as to make the same conform to the Constitution.
Conkling spoke in favor of the Senate substitute and against the House bill.
McDonald from the Postal Committee reported favorably the bill to encourage the establishment of a line of American steamships for the conveyance of United States mails to Europe and Atlantic ports and promote immigration and reduce the rates of ocean postage.
Cole introduced a bill to amend the act authorizing the establishment of ocean mail steamship service to the Hawaiian Islands and extend the same to Australia.
Stewart introduced a bill extending the provisions of the civil rights act for the enforcement of the fifteenth amendment.
Sumner offered a resolution which was adopted asking for information with regard to the bonds issued to the Pacific Railroad Company.
Corbett from the Committee on Commerce reported, without amendment, the bill to encourage telegraphic communication between the Eastern and Western continents, it gives the American and Atlantic Telegraph Company the exclusive right for fourteen years to maintain a submarine cable to Asia, starting from a point south of Cape San Juan, Washington Territory, and provides for detailing United States vessels to assist in the promotion of the enterprise.
A message from the House announced the death of Representative Hoag, whereupon Thurman and Sherman made appropriate addresses, and the customary resolutions were adopted. Senate adjourned.
In the House, several bills were introduced, among which were these to allow drawbacks upon duties paid on ship building material, excepting them from the operation of the law, abolishing the franking privilege, excepting the circulation of weekly newspapers within counties, and making provision to allow free, the transmission of all periodicals sent from the office of publication to actual subscribers, requiring a uniform railroad gauge in the United States, to discontinue the Freedman's Bureau, and to amend the law establishing a Bureau of Education, to give female employes of the Government the same compensation that men receive in similar positions; also, several making land grants to railroads.
A resolution which was offered by Marshall, of Illinois, last Monday, came up declaring in substance, that the tariffs should be levied for revenue, not for Protection. The question was on Kelsey's motion to table it, which was carried by a vote of 80 to 77. A resolution to reconsider, was tabled by 91 to 88.
Bingham introduced a bill amending the postage law by making letter postage two cents and one cent for each additional ounce, papers circulating in the State or Territory where published, or within one hundred miles of the place where published, to be exempt from postage. The bill also makes it the duty of the Postmaster General to establish a uniform and moderate box rental.
Beck introduced a bill making it the duty of the Government to adopt all patents and copy rights for our own purposes on such terms as may be agreed upon.
Orth offered a resolution asking the President for the correspondence between Sickles and the Spanish Government in relation to Cuban affairs, and also for any information in regard to the present position of the struggle for independence in Cuba. Adopted.
Sargent, from the Committee on Appropriations, reported the Indian Appropriation bill. It appropriates $2,088,930 against $6,227,771 appropriated last year, being $1,969,404 less than the bureau asked for. It was made the special order for Friday next.
Morgan announced the death of his colleague, Thomas H. Hoag, member of the Toledo district of Ohio. After the usual eulogistic speeches, resolutions of condolence were adopted. The House adjourned, a committee having been appointed to accompany the remains to Ohio.

New York News.
NEW YORK, Feb. 7.—The Mormon Mission is being pushed forward with all the energy possessed by the laborers in the vicinity of Free Port, Center City and Long Island. During the earlier part of the week favorable accounts of Gen. Burton's work were given out. Meetings and preachings were held three times a day. More preachers have been sent forward from Utah and are expected every day. Elders and priests are traveling and preaching in every village and town situated within a circuit of seven miles of Newport. At Williamsburg yesterday Elder Jackson, of Utah, preached to a large congregation.
NEW YORK, Feb 7. A telegram from Gov. Reed, of Florida, says the efforts to impeach him have failed. His administration has been upheld by two thirds of the House.
NEW YORK, Feb 7—J. McL. Brown, of the Chinese Embassy is expected to join Burlingame at St. Petersburg, where the embassy will remain until the negotiations with Russia are completed. They will then go to Brussels in Belgium. Mr. Brown says that the correspondence which passed between Burlingame and Count Bismarck that the same they will be adopted with Prussia which has been adopted with America, England and France, viz the policy of forbearance and consideration toward China, of concession and abstinence from the use of force to compel her to adopt measures for which she is not at present prepared.
NEW YORK, Feb 7—At a recent meeting of the members of Plymouth Church, it was decided that a committee be appointed for the purpose of revising the article of faith. Many members demanded the church but did rest upon a broader basis. Beecher said he approved the proposition to revise the creed of the church but in as much as the committee for that purpose would be appointed by himself he would ask that time be given him to make the proper selections. This was granted.
NEW YORK, Feb 7. The London Times says Queen Victoria is quite well again. For the past few months form no foreign affairs of different parts of the body had enough to cause alarm.

The President Withdraws the Indian Treaties.
CHICAGO, Feb. Washington specials say that the President, in accordance with the recommendations of Secretary Cox, has withdrawn from the Senate all Indian treaties by which it is agreed to sell lands, contracted or unpaid. This marks the policy of the administration with regard to cases of Indian lands.

Important Supreme Court Decision.
It is asserted among lawyers that the Supreme Court will in the December decision of the legal tender act. The Court will sustain the constitutionality of that law to the extent that it was fairly justified by the necessity that the national debt should be liquidated by legal tenders. It is said the decision will also declare that a state of war no longer existing, the law authorizing such tenders cannot be legally made.

Project for an Indian Territory.
CHICAGO, Feb 7. The House Territorial Committee will soon report a bill organizing a new territory in the Indian country. The President heartily favors the project, and thinks the election franchise can safely be extended to Creeks [illegible] and other tribes advanced in civilization.

Recommendations for the Supreme Court Vacancies.
CHICAGO, Feb 7. A Union City (Mich.) Delegation visited the President on Saturday asking the appointment of Senator Drake to fill one of the vacancies on the Supreme Bench. The President mentioned as the fact that Drake's name in the legislation increasing the number of Judges, giving the impression that he considered that fact a bar to his appointment. Several names are presented for the other vacancy such as Judge Durant of Louisiana, Erskine of Georgia, Holt of Kentucky, Carey, Attorney of Ohio, now Chief Justice of the Supreme Court in the District of Columbia.

Good Effects of a Scouting Expedition.
ST. LOUIS, Feb 7. Dispatches announce the return of Major Budd from a scouting expedition to the camp of supplies, bringing a big war chief and been regarded as threatening hostilities. Major Budd was sent on a tour of observation. He thinks the expedition had the effect of arresting mischievous plans of the Kiowas.

Another Railroad Strike—Residence Burned.
OIL CITY, Pa., Feb 7. Owing to a reduction of wages a large portion of the men employed on the Jamestown and Franklin railroad have struck and threaten to force every man to quit. They apparently mean business. The foreman of those who remain advises them to quit for their own security.
BINGHAMTON, N. Y., Feb 7. The residence of Col. Walton Dwight, formerly occupied by Daniel S. Dickenson, was burned to day. Loss $70,000, insured for $54,000.

Americans Murdered at Havana.
HAVANA, Feb 7.—Yesterday four Americans walking along the street and wearing blue neckties, when near the Tacon theater were stopped by a man who addressed them in an excited manner, pointing to their neckties. Not understanding Spanish no answer was returned. The man then drew a revolver and commenced firing. One American was killed and two others wounded and are now in a precarious condition. The fourth made his escape and was pursued by the crowd shouting and crying "stop him." The man who fired the shots has disappeared and it is not known whether he was a volunteer or not. The American Consul General is investigating the affair. Secretary Fish has telegraphed to learn the particulars. Captain General De Rods is highly indignant and has ordered every exertion to be made to discover the perpetrators, offering a thousand dollars reward for their arrest. If found they will be tried before a drum-head court martial and executed forthwith. People of all parties denounce the deed. The victims of this affair arrived from New York a few weeks ago.
The volunteers who took a prominent part in the recent disturbances at Matanzas have been arrested by order of the Captain General and are now confined in Moro Castle awaiting trial by court martial.

Supreme Court Decision Concerning Legal Tenders.
NEW YORK, Feb 7.—The Supreme Court decision on the legal tender question is the great subject of discussion in financial circles. The decision as understood in Wall street is that the legal tender act was justified by the war, but that Congress has no power to issue any more legal tender notes and that all contracts made before 1862 must be paid in coin. In this shape the decision is certainly very important, but its influence on values has been remarkably slight, considering the decision makes some millions of railroad bonds and an immense aggregate of State and city bonds payable in coin, both principal and interest of which, for eight years, have been paid in greenbacks. It is not improbable that some of the poorer States, as North Carolina or Tennessee, being unable to provide for the payment of debts, even on a currency basis, may be driven by this decision into open repudiation, pleading the action of the Supreme Court as imposing on them obligations they could not honor.

Sale of Pictures.
The sale of the Thompson collection of pictures opened to day and the bidding was spirited. The prices though low were fair for the poorer pictures, which were offered to day.

A Contested Will Case.
Will Burns' rat pit was inaugurated to day at the Water Street Mission. Bishop Jonas, Rev. H. S. Tyng jr., and others made addresses. Burns still runs a saloon next door, through which the ministers are compelled to pass to reach the mission house.

Deaths of Distinguished Men.
PHILADELPHIA, Feb 7—George M. Wharton a distinguished lawyer, died last evening.
WOODSTOCK, Feb 7—Peter T. Washburn Governor of Vermont died here to-day.

Miscellaneous News.
CHICAGO, Feb 7. M. Wright of Indianapolis was assaulted robbed and left for dead on Saturday night by four ruffians who knocked him senseless and cut his throat. Wright was found on Sunday morning with his feet badly frozen and in a very critical condition from the loss of blood. The object was murder.
A ruffian in a street car at midnight on Saturday provoked a disturbance with the passengers, and being too powerful for unarmed men to eject, he actually drove the ladies and gentlemen from the car.
Judge Billings a member of the Constitutional Convention, has become insane and been sent to the insane hospital.
The committee of the convention have nearly completed their work, leaving the Convention to adjust and revise the various articles reported.

BY THE CABLES.
MARSEILLES Feb 7—Rochefort's *Journal* appears with a characteristic article over the signature of Rochefort himself relative to the recent notice upon him ordering him to consider himself a prisoner, in obedience to the sentence of the Court. He declares boldly that he will not surrender himself and that if the Ministers want him they must come and take him, and, further more, they must come prepared to use force.

In his interesting little book Mr. Pemberton thus refers to the proposition to construct an overland railway south of the forty-ninth parallel:
"In short, taking into consideration the mountain pass, the hopelessly barren nature of the country traversed, and the circumstance of its having for its outlet the bar of the Columbia instead of the Straits of Fuca, this route cannot compete with that proposed to be made in the British territory. It cannot be urged that the extension of the American line to Seattle, a port on the east side of Puget Sound, as railroad, would make the comparison more favorable to the American line, by it the distance of St. Paul from Seattle is 2,025 miles, of which 1,152 miles would pass through an uncultivated [illegible] affording but little game at uncertain [illegible] and at a late season not a sufficiency of gr

What Now?

will the Democrats now do in the
of paying the public debt in gold
And what will they say in relation to
her issue of greenbacks to supply the
f those retired and to furnish the
with a larger circulating medium?
preme court has decided that the gov
t cannot be paid in gold to redeem that
ue of legal tenders was only just
the first instance, as a necessary war
re, and that a state of war no longer
g Congress cannot constitutionally
ize the further issue of such money
he Democracy who have so long and
formly appealed from Congress to the
me court, who have so confidently re-
on the courts who have so constant
ated and reiterated their solemn belief
the last hope of constitutional liberty
with the Judiciary will they now go
on the Supreme court and declare that
he Executive and Legislative Depart
, the Judiciary is also venal, partisan,
ile, etc

ly the paths now trodden by Democ
are not ways of pleasantness. The
went against them Reconstruction
against them, including the thirteenth,
eenth and fifteenth amendments The
e went against them in all the import-
elections. Congress is against them
administration is against them and con
ly gaining fresh victories at all points—
g them only the other day to suffer
so many frightened sheep, from the re-
ation platform upon which they had
for two or three years concentrating
now comes the Supreme court and blows
hese last remaining plank—payment in
tenders—higher than a kite "Higher
a kite" hardly defines the altitude to
h the Democratic platform is tossed by
Supreme court. And the peculiar hard-
of the situation is that the Democracy
not complain at being so tossed, for have
not uniformly appealed to the Supreme
t to set things right? The Judiciary has
gone and done it and Democracy has
ing left to do but to manfully acquiesce
et themselves up in opposition to the
m of their own referee and go for repu-
on straight and unqualified

here is little doubt concerning what the
ocratic party of Oregon will do in this
ers. Notwithstanding the protest of the
rority who have self-respect enough to in-
npon "honesty as the best policy," the
party will pledge itself for repudiation
what will that party of the East do?
what will the honest Democrats of Ore-
do in such a case? At the East, repudi-
n will sink the party to lower depths of
at than it ever "prospected" in its whole
ory. And we trust for the good name of
people of Oregon that there will be found
y conscientious Democrats who cannot
bargered or won by wiles into the sup-
of a proposition so monstrous and which
t be so ruinous to the credit of the nation
the fair fame of the American people.

The Way They Do It Everywhere.

ov. Hoffman, in his message to the Leg-
ure of New York, made it a special point
press upon the minds of the public that
onsidered it the "special duty" of the
Democratic Legislature "to secure a
e prudent, honest and economical home
rnment." The Legislature, however,
this for just what it was, arrant bun-
be, and immediately went to work to
r all the offices of their Republican occu-
s, and then to increase the salaries of all
officers and employes in the various de-
ments of the State Government, besides
iding for an additional horde of official
ures for New York City. This style of
eering has an exact parallel in California,
re the enormous appropriations and
lling of partisan pockets with the people's
is by the present Democratic Legislature,
r had a precedent; in Montana, also,
re the Democratic Legislature not only
ected the Territorial Treasurer from an
stigation upon distinctly laid charges of
lation, but took away the perquisites of
blican officials, added to the facilities
eating by the Democratic officers, and
ased the annual expenses by at least
000; in Colorado, also, where the recent
ocratic Legislature not only used up
000 which was left in the treasury by the
ublicans, but contracted a considerable
bt beside, and increased the pay of all the
ocratic officials, by way of showing their
omy. We are told by Democrats that
pocracy is the same everywhere; and these
mples constrain us to believe that they
really, all alike, everywhere, in the mat-
of stealing and feathering their own par-
nests. We recollect well how they got
office in this city on the cry of "econo-
" and then almost immediately increased
pay of several Democratic officials, and
bled the cost of city printing The party
ld do the same thing for the State, if they
ld carry the next State election We do
charge this without grounds, as may be
by observing the action of every Demo-
c Legislature that has been in session
winter

FLOOD AT WALLA WALLA—ATTEMPT TO BREAK JAIL
BURGLARY OF A STORE

[From the Walla Walla Statesman Feb 5]

The warm weather of Friday and Saturday last,
caused a rapid melting of the snow on the moun
tains, and as usual Mill Creek became a foaming,
raging torrent On Friday night the water reached
its highest stage, and for a time threatened the
destruction of a large amount of property As it
was, nearly all the mill dams on the line of the
creek were washed away. The dam just above
town, which furnishes water for Dovell's Planing
Mill, and also supplies the City Water Works was
the first to go, thus cutting off a large number of
persons from their usual supply of water In
addition to washing away Dovell's Dam, the flume
where it crossed Mill Creek was washed away
Mr Dovell's damage exclusive of loss of time, is
about $300 In the town considerable damage
was occasioned by the washing away of ground
Among those who thus suffered, we notice Sheriff
McAuliff, Captain P B Johnson and C F Kraft
Below town the head gate of Reece's Dam was
washed away and some trifling damage to his
flume, all of which has been repaired The freshet
also occasioned some slight damage to Chapman's
new mill The water was not so high as that of
three years since, and was attended by vastly less
loss of property

ceased to be a virtue and so he had him chained
to the floor of his cell

AT OREGON CITY —A St Valentine ball was
given at the Odd Fellows' Hall, Oregon City,
last

The Daily Oregonian.

WEDNESDAY MORNING FEBRUARY 9, 1870

CITY.

RE APPEARANCE OF MRS BATES —The daughter of the Regiment has been cb sen as the piece in which Mrs Bates will make her re appearance on the stage at Oro Fino Theater this evening There is but little necessary for us to say to our people in regard to the merits of Mrs Bates as an actress Her popularity in that respect has been already established and we feel justified in venturing the assertion that a full house will greet her this evening It is but right that the expensive efforts made by the manager to please and interest the Portland public should meet a cordial supp rt from all who desire the continuance of a first class dramatic troupe among us We learn that the season commencing by Mrs Bates this evening will last but a few days The cast is full and a rare entertainment may be confidently expected

BEFORE THE RECORDER —Several cases were before the City Recorder yesterday Mary Lee who has been indulging extravagantly in bad whisky for a long time, and who has several times within the last two years been called upon to answer for creating disturbances and who was some time since carried a distance of several blocks on the brawny shoulders of a heavy set policeman to the calaboose was up again yesterday for drunk enness and disorderly conduct, and was fined J D Emmons, charged with firing a gun on the street was discharged on payment of part of the costs George Maxwell convicted of assault and battery, was fined $5 and costs Two *hombres*, convicted of drunkenness and disorderly conduct, were each fined five dollars or two days' board in the Calaboose Board preferred

TROUBLES IN LEWIS COUNTY, W T —From a gentleman who came from Olympia, overland to Monticello, and arrived in this city by boat, we learn that a large number of men had assembled on Cowlitz Prairie, as the stage passed that place for the purpose of ejecting s me squatters, r settlers on lands in that vicinity It was feared that serious results would follow, similar in their nature to the late scenes upon the Sound The affair, however, had not culminated when the stage passed It seems to us that our neighbors could find a much better way of settling their difficulties than by a resort to arms

THIS AFTERNOON —A good programme selected by the Military Band for their performance at the Plaza, beginning at half past two o'clock, is as follows

1. March from La Fille di Regiment, *Donizetti*,
2. Ladies' Schottisch.
3. Duet from Norma (Mira O'Norma) *Bellini*
4. Quadrille from Il Travatore, *Verdi*
5. Duet from Maritana, "Holy Mother Guide his Footsteps," *Wallace*
6. Saratoga Waltz.
7. The Portuguese Reveille
8. Helter Skelter Galop.

IN THE RIVER.—A night or two since a man walked off the wharf at the foot of Taylor street, plump into the river where the water is perhaps twenty feet deep He swam to one of the piles and clinging to it began calling most lustily for help His cries attracted several persons to the spot who rescued him after some trouble experienced in reaching him. The place where he walked off is fifteen feet high, or more, and should be guarded by a railing of some kind, as it is so near the street that such an accident is very liable to happen more than once.

COUNTY COURT.—In the County Court Judge P A. Marquam presiding, the proceedings were as follows

Arnold & Pain vs Stephen Coffin; judgment by default for plaintiffs in the sum of $283 50, interest and costs

In the matter of the estate of Patrick Daly, deceased, petition for leave to sell real estate, order made allowing citation to issue.

The County Commissioners will meet at one o'clock this afternoon.

HIBERNIAN —The Portland Hibernian Benevolent Society, at their annual meeting, held on Monday evening, elected the following officers for the ensuing year: W. P. Burk, President, Frank Gatens, Treasurer; Thos. Kearney, Secretary, John Donovan, Assistant Secretary, Jas. Carroll, Flag Bearer. A committee was also appointed to confer with other societies, in regard to the appropriate celebration of St. Patrick's day, and make all necessary arrangements for that purpose.

FROM WASSHINGTON.—Some of our prominent citizens who have been taking an active interest in the West side railroad, have received news from Washington that important measures in aid of the enterprise are now pending in Congress, and will doubtless be passed by that body. We trust this news will be confirmed, and from all advices of late, we have every reason to believe that it will be.

U. S. CIRCUIT COURT.—The case of Benjamin Stark vs. L. M. Starr, suit to recover possession of Lots 1 and 2 and the north half of Lot 4, all in Block 81, in this city, was taken up in this Court yesterday, and a decision rendered in favor of plaintiff for possession of the property in dispute and for the sum of $1,962 50 as damages for the detention of the same.

AT OREGON CITY —A St. Valentine ball will be given at the Odd Fellows' Hall, Oregon City, on next Monday evening From the names which appear as committeemen, we are assured that such arrangements will be made as will render the occasion one of rare enjoyment to those who attend Price of tickets of admission $3 00.

NERDY.—We learn that a family is living near the Academy who are really in destitute circumstances, and need the aid of others to obtain the necessaries of life They are represented as being worthy people, and a fair chance is offered for some of the benevolent people of Portland to exercise their charity.

HAUNTED.—The *Commercial* says the inmates of a house on Morrison street near Second, have been both annoyed and alarmed, and are convinced that disembodied wanderers from the spirit realm are visiting them with evil motives. It is very likely that some tom cats are sparking in that locality.

LAST NIGHT.—The theater was pretty well attended last night, and some uproarious applause was given. The engagement of Joe Murphy has been successful, and many a spell of the "blues" has been laughed away by theater goers since his advent among us We hope to see him again.

SAILED.—The *Helen W. Almy* dropped down to Springville yesterday to complete her cargo She took over 350 tons of freight from here, and will probably take on 100 more at Springville This will be 5,450 tons shipped from Oregon via the Columbia river since the first of January.

RECENT WEATHER.—We learn that the weather still continues stormy and the bar rough There were no vessels at Astoria when the boat left for this place, yesterday morning The bark *Edward James* is about due, but has not been seen

SERMONS —We are requested to announce that Rev. T L Eliot, pastor of the Unitarian Church in this city, will preach a sermon on the text, "Keep to the right, as the law directs," at Oro Fino Theater next Sunday evening

AGENT —We learn that E. F. Russell, Esq., of Albany, who is intending shortly to remove to this place, will act as general agent for the New England Mutual Life Insurance Company for Oregon and Washington Territory

SOCIAL DANCE —A social dancing party will be given at the American Exchange this evening Mr Quimby's plan of affording these opportunities for social enjoyment to his guests during the dull season is very popular

MILITARY BALL —As will be seen, a grand military and civic ball will be given by the Washington Guard on the 22d inst No doubt the occasion will be very enjoyable The Guard always make them so

INSTRUMENT The total damage to the stock of Baum Bros by the fire Monday night it is thought will not exceed three hundred dollars There was an insurance to the amount of $15,000 on the entire stock

IN TOWN —Prof Plummer the inimitable elocutionist is now in our city We are not advised as to whether he will give any of his pleasing entertainments before leaving us, but hope he will

MAILS —Another large mail from up the Columbia reached this city last evening

GOING TO SALEM We learn that the theatrical troupe now playing in this city, will go to Salem on Thursday or Friday to play a short while at that place We commend them to our friends at the Capital as thorough actors and great mirth provokers

The original copy of the famous Locompton Constitution is now in the possession of Colonel Jones, of Middlesex county, N J. It is written upon a large sheet of parchment, about a yard square. It was twice captured during the Kansas troubles and went safely through the sacking of Lawrence.

Dean Swift is said to have preached three anniversary sermons before the Merchant Tailors' Company, from the texts, "Steal no more," "Yet a remnant shall be saved," "There were lice in all their borders," and it is added, somewhat superfluously, that these sermons gave great offense to the listners

The planters of Mississippi are canvassing the feasibility of establishing cotton factories on the co operative principal in all the principal towns in the State This is the common sense plan, and will admit of planters and persons of small means sharing in the benefits to be derived from the manufacture of the great staple raised at their doors.

According to the very accurate observations of M Marie Davy, just announced, the heat derived from the calorific rays from the moon is not sufficient to raise the temperature of an exceedingly sensitive thermometer the one millionth of a degree. This result, it may be added, is in direct variance with that deduced by Lord Rosse in his investigation of the same subject.

What the Miners say of Houstetter's Stomach Bitters.

During the season when the Gold Harvest is generally suspended, and the rest of the glittering crop seek the cities to enjoy themselves, there is, of course a good deal of conviviality among this enterprising and hard working class but drunkenness is not carried to the excess it was some years ago. This may fairly be attributed to the distaste engendered by the use of HOSTETTER'S STOMACH BITTERS This famous stomachic is in universal favor with the miners They take it with them to the interior, and use it regularly, not as a beverage, but as a strength sustaining tonic and an antidote to the unhealthy influences to which they are exposed in the localities where they labor; and on returning, to the cities and towns, they find in its refreshing and invigorating properties the best safeguard, not only against the diseases but against the dissipation of crowded communities It is one of the peculiarities of the preparation that it is an antidote to inebriety Those who take it as an appetizer and invigorant, aver that they have no desire whatever for liquor of any description, and, whatever fanatics may think to the contrary, HOSTETTER'S BITTERS is a powerful ally of the temperance cause It is because unmedicated alcohol weakens the stomach and nervous system by its reaction, that it begets a craving for itself. It excites, and when the excitement passes off, debility ensues, and more fuel is needed to renew the artificial fire that has, so to speak, burnt itself out But the effect of the great vegetable tonic and alterative is to invigorate the system permanently and healthfully

What the Hon W T Ballou says about the King of Pain

SAN FRANCISCO Dec 2 1869
Dr J J McBride—Having suffered with sciatic rheumatism some months I was induced to use your King of Pain I take pleasure in recommending it to those afflicted with rheumatism I know of several cases of neuralgia that have been cured by using it
W T BALLOU, of Elko Nevada

Card from Harbor Master

SAN FRANCISCO Dec 2, 1869
To Dr McBride—This is to certify that I have been troubled with neuralgia in my right arm and hand for the past three months and although I have had medical advice and tried a number of remedies, none has relieved me until I tried Dr McBride's "King of Pain" which has done me more good than all the other remedies I have tried. DR. J. J. M'BRIDE,
TREATS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS
A CARD.
SAN FRANCISCO Oct 16, 1869
DR MCBRIDE—My Dear Sir For the last six or seven years I have been afflicted with rheumatic pains, from my knees down, embracing all the joints of ankle and toes These pains have come upon me periodically every year about this season of the year My knees and ankles, and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady These pains would continue for a period of from three to four months every year, and they have been regular, unfailing annual visitors I have been accustomed to apply for relief to the best citizens of San Francisco, and have not failed to use all the popular remedies known to the public I would sometimes receive temporary relief, after long continued application but it would never fail to return in a few days with increased severity

At this wretched age while my pains were upon me I saw you at the corner of one of the streets and heard what you said about your "King of Pain" I confess that I listened to you with deep distrust indeed I may say that I did not believe your statements Still thought I, it is only a dollar, and I'll patronize the humbug one dollar's worth I bought a bottle and tried it first on my knee which was fearfully swollen and from which I suffered very severely The second night I tried it again and my dear Doctor, you can judge of my surprise ecstacy and delight, altogether, when I found on rising the second morning that my pains were entirely gone and the swelling entirely disappeared My knee joints were as supple as when I was young I actually danced with delight, much to the amusement of my friends, who had been in the habit of regarding me as a decrepid old rheumatic It has now been two weeks, and I have not felt the least symptom of return I believe I am cured and I feel so grateful to you that I offer you this statement, verified by my oath, to be used by you in whatever way you may think proper and I feel it a duty to let others similarly afflicted know where they can find relief

I am yours, very truly, RAPHAEL LORAINE
State of California, city and county of San Francisco On this 16th day of October 1869 personally appeared before me, a Justice of the Peace in and for the city and county of San Francisco aforesaid Raphael Loraine to me to be the person who signed the foregoing letter and who being by me duly sworn deposes and says that contents thereof are true
T W TALLBERG Justice of the Peace

TO THE PUBLIC
Grateful for the eminent services of Dr J J McBride I cheerfully make a statement of the following facts For twelve months I had suffered from prostration of my nervous system resulting in partial paralysis and almost total loss of sight A score of physicians had abandoned my case as hopelessly incurable I had even heard my doom pronounced by doctors and friends In the agonies of my neuralgic pains I sought in vain relief I also failed to find it in foreign nostrums or the half hour I had obtained in the medical mid that I had known for long weary months My sight was so much restored that I could read print although I had needed a guide to find Dr McBride's office on hour before Before leaving him I had regained the use of my almost palsied limbs and seemingly my strength I had retained while all those aches and pains my constant companions were dissipated and my nervous system toned and built up It is now ten days since I underwent the last treatment with Dr McBride, and I can say unhesitatingly that I am restored as I could not have expected to have been in a little time My eyesight is in fact perfectly regained my whole physical system corrected and in its undoubted health

My residence is in Reading I do business at No 6 Cambridge street in this city where I will willingly vouch in person for the truth of the foregoing to any one interested

GOOD WORK—ESTABLISHMENT OF A HOME FOR WOUNDED VETERANS ON WARD'S ISLAND

It has been said that "republics are ungrateful," and the saying is not entirely devoid of truth, taking into consideration the vast number of maimed veterans of the late war who are to [illegible] wandering through the streets of various northern cities begging for the necessities of life mainly because the government has failed to provide suitable provisions for their maintenance New York has its full quota of this class of unfortunate humanity At the close of the war propositions to found soldiers' homes and asylums were made in profusion, and if the words of could be philanthropists could have possibly done true, much of the misery and degradation to which [illegible] would have been obviated, but like the [illegible] that was to have been erected in Union Square to the memory of President Lincoln, has been forgotten

During the past year there was an effort made by a number of humane ladies of this city to establish a home for crippled soldiers, but the project fell through for the want of a sufficient amount of funds to carry out their scheme

The Almshouse, on Blackwell s Island, was filled with poverty stricken, one armed and one legged soldiers as early as November last, and so rapidly did they accumulate that the subject attracted the attention of the Commissioners of Charities and Correction, who held a special meeting on the 17th of that month and caused to be issued the following order

Whereas numbers of volunteer United States soldiers, by reason of wounds and infirmities, have become inmates of the hospitals and almshouses of the department, it is therefore

Ordered, That the Warden of the Almshouse and those contiguous wards to be fitted up for such as shall have certificates of honorable discharge or be to his satisfaction, shall show that they were honorably discharged from the service of the United States, by reason of having received wounds or contracted disease while in the line of duty, and that they be provided with comfortable clothing different from that of the inmates of the [illegible] Hospital.

Immediately after promulgation of this benevolent order the soldiers in the various pauper asylums on Blackwell s Island were gathered together furnished with warm, comfortable army clothing and transferred to the Venerable Hospital, where they were assigned to wards entirely separate from the usual patients until suitable apartments could be provided elsewhere. The Commission in the month of December selected the east wing of the Tuberculosis Asylum on Ward's Island for their future home, and after making considerable alterations they were transferred to that institution during Christmas week, where they are present under the charge of Dr. Fisher.

They number but 450 120 and 130, and have every comfort of a home. The men are divided into wards of 60 each, in a manner—any fashion—and are governed strictly by military regulations [illegible] they take a pride in the wording, at the top of the form of [illegible] those who can manage to [illegible] able [illegible] sit up by columns, perform their ablutions, and march in the hall or dining room to their meals, which consist of all the coffee they wish to drink, good, wholesome mess three times a day, [illegible] bread and butter twice a week. After the meal has been finished they are employed at little jobs around the building till one o'clock, when they partake of a substantial dinner, which consists of salt beef and pork, [illegible] bread and potatoes, and rice [illegible] every other day For supper, mush and molasses. Rooms of wards are being fitted up [illegible] to accommodate between 100 and 200 in so that there is every prospect that the number of wounded, destitute soldiers on the streets will be [illegible]

[From the Springfield (Ill.) Journal, Jan 17.]

In accordance with previous announcement the [illegible] men's skating party came off at the rink on Saturday night last. The number of weighty men [illegible] was quite large, and in addition to these there was a large number of skaters and spectators in fact the rink was crowded with those wishing to see the "weight and muscle" of the city on the ice. The ice was cleared at eight o'clock, and as a preliminary step a Fairbanks platform scale was brought upon the ice for the purpose of weighing the party. The clerk, Colonel J M Snyder, [illegible] to keep tally, in order that none weighing under 300 pounds should appear upon the ice as present at his post, and the business of weighing commenced. The following named gentlemen appeared and the clerk announced the respective weights as follows Major A W Edwards, of the Carlinville *Democrat* leading the party with 387½ pounds:

[illegible] Edwards	387½	J H. Currier	208
H Shuck	304	Mr Lee	205
F Hames	300	A J. Lindsay	204
W Chesney	290	[illegible] Gibson	204
C Nutts	287	J W Conkling	203
H Debois	280	A Starne.	202
M Grimsley	220	J T Warne	201
Hickox	217	A J Dunning	200
Nafew	210		

There might have been others, but if so we did not hear their names announced As the clerk announced the weight of the respective parties as they went up from the crowd of spectators Major Edwards, although one of the most graceful and [illegible] looking men in the crowd did not appear on skates for the reason we made stand that the weight was about two and a half pounds more than the "regulation one" admitted—and then the managers of the rink declined, taking the responsibility of the ice &c much to the regret of those present. At the word the fortunate ones came to the and got off in fine style and the skating commenced in earnest, and it was in truth earnest work in many respects The scene upon the ice was as amusing and interesting and worthy the pencil of Hogarth as his best days The exhibition consisted of plain and "figured" skating, some of the exercises not being laid down in the American Skating Club book although a good many of the skaters were laid down in the various positions [illegible] not a ways according to rule The rules were laid aside and every skater cut the spread eagle" and practiced the grape vine and long [illegible] after a fashion peculiarly his own So much [illegible] skaters placed their portraits upon the ice after various designs, and had the ipe been soft the impress would have been lasting The party may be considered a success and the affair was highly enjoyed by the skaters and spectators It may be proper to remark in this connection that the services of the surgeons were not required

[illegible] OSITIES OF POLITICS—PREMATURE RECOGNITION OF A NEW YORK CANAL APPRAISER

(From the Binghamton Republican Jan 15.)

Judge E P Brooks of Elmira Canal Appraiser for a number of years, recently found himself out of office under circumstances that are very curious In pursuance of a purpose to resign his office to the new administration when some business he had on hand was finished he made a draft of a letter of resignation and left it to be private [illegible] office A few days afterwards he received a letter from Governor Hoffman complimenting him on his very faithful performance of duty and accepting his resignation At the same time Col North's name was sent to the Senate for his successor

When the fact came to the attention of the Governor he saw the unmanly thing [illegible] to Judge Brooks and him elf respectively at first declined to resign but upon further reflection Albany it had been clearly [illegible] the people [illegible] that Governor Hoffman had [illegible] Judge Brooks [illegible] to keep the matter in the question of appointment which had no matter if the appointee had to [illegible]

FRANKLIN [illegible]

The Brooklyn Daily Eagle [illegible] meeting at No 168 South Clark [illegible] the above [illegible] Mrs James [illegible] James A Mrs [illegible]

The minutes [illegible] meeting were read and Mr B [illegible] a letter [illegible] the Daily News [illegible] had caused [illegible] from one [illegible] the unseasonable exercise [illegible] and time

The first paper mentioned authentically was published under the name of the *Intelligencer* It is however stated that as early as 1814 a weekly paper named the *Hatchet* had been published the contents [illegible] which might be compressed into about three columns [illegible] modern sheet In 1815 the paper was enlarged by four inches to twenty eight inches it was printed on an old press which worked a sheet about the size of an octavo book page In 1816 a new press was received and the title [illegible] to the four leg The removal [illegible] to Spring field caused the death of the enterprising sheet Through the kindness of Mr Clarke Secretary of the Historical Society the meeting was permitted to see the first number thereof The *Expositor* afterward the *Gazette* and the *Spectator* were the next two.

Afterward came the *Democrat* from 1836 to 1860 thirty six papers had been started and had died in Hancock county which tells its own tale

In his sketch of newspapers Mr Rose reverted to the decease of the *Observer* at Alton in 1837, and related minutely the circumstances that led to the murder of its editor Rev Mr Lovejoy and the other outrages that accompanied it The paper concluded with a request that [illegible] of the present would endeavor to [illegible] record of more recent publications

It was determined to publish it in broad paper form These are now produced in beautiful form by the Society They are models of typographical beauty

The meeting then adjourned

THE DISFRANCHISEMENT CLAUSE A SOURCE OF TROUBLE—COLORED CONVENTION—THE STEAMER LADY GAY—INJUNCTION REFUSED

ST LOUIS Jan 20 —Some dissensions are occurring in the Republican party of this State owing to differences of views upon the retention of the disfranchisement clause of the Constitution A caucus of members of the Legislature was held at Jefferson City last night to attend which leading members of the party from various portions of the State visited the capitol After a short and sharp debate, it was decided that none but members should take part in the session, and the caucus adjourned to the 28th It is probable that the lead of Senator Schurz and the *Missouri Democrat* will be followed, and an amendment to the Constitution striking out the test oaths will be submitted to a vote of the people of the State next fall

TWENTY FIVE MILLIONS TO BE PAID, OR THE GLASS MUST BE BROKEN —The San Francisco *Bulletin* of January 24th relates the following

Captain Ellis, of the detective force gave his attention to the matter of the broken glass windows at the California Bank and came to the conclusion that the mischief was the work of some insane man He obtained a description of the man who visited the bank and was ejected and last evening about dusk found a man on California street who answered the description of the visitor of the day before On taking the man into custody the Captain found him to be a Norwegian by birth who came to this State three months ago He gave his name as William Johnson When asked if he broke the glass he gave an equivocal answer, but stated that the bank owed him $25,000,000, and he would break the glass for them a dozen times, and keep breaking it until they pay him He is willing, as a matter of accommodation to take pay in $10 000 000 installments, but pay he is entitled will have He also demands rent for the banking house until the principal sum is settled The foundation of this debt is that the bank owes him "tribute," and it is to pay the debt by "collecting the money from all over the world." It is the general opinion outside that the payment of that $25 000 000 by the bank would be the feather that would break the camel's back, and that the bank would have rather its plate-glass than its backbone broken A speedy settlement of the demand is therefore improbable

The most daring and and successful leader of guerrillas in the Spanish army operating near Santiago de Cuba is Major Francis O'Callaghan, an Irishman, who has been a merchant in Santiago Several of his relatives have joined the army, and the Cubans call him the ferocious Irishman
